

RAHUL SANGRAL

AI/ML Engineer | Data Analyst | Full-Stack Developer | Founder

+91 9682394363 | rahul.rishusangral@gmail.com | linkedin.com/in/rahulsangral | github.com/sangralrahul | aethex.in
Jammu, India | Open to Remote | U.S. Time Zone Available | Available Immediately

PROFESSIONAL SUMMARY

Results-driven AI/ML Engineer and Data Analyst with 2+ years of independent development experience building ML pipelines, RAG systems, ETL workflows, REST APIs, SQL/BI dashboards, and full-stack applications. Founder of Aethex, a live AI-powered medical SaaS platform serving 200+ registered users. Skilled in Python, SQL, Tableau, Power BI, React, FastAPI, NLP, Claude API, Amazon Bedrock, and cloud platforms (AWS, GCP, Azure). Available immediately for remote U.S. time zone roles.

CORE COMPETENCIES

Programming & Data: Python (Pandas, NumPy, Scikit-learn), SQL (PostgreSQL, MySQL), Excel, Google Sheets

AI / ML & LLMs: Machine Learning, Deep Learning, NLP, RAG Pipelines, Prompt Engineering, Claude API, Amazon Bedrock, Vertex AI

Data Engineering: ETL Pipelines, Data Modeling, KPI Dashboards, Tableau, Power BI, Streamlit, Matplotlib

Web & APIs: React, FastAPI, REST APIs, Firebase, Docker, Git, GitHub

Cloud & DevOps: AWS, Google Cloud Platform, Microsoft Azure, Azure AI Services

PROFESSIONAL EXPERIENCE

Freelance AI/ML Developer | Remote | 2023 – Present

- Designed and delivered custom AI/ML solutions, data pipelines, and full-stack applications for clients across healthcare, finance, and business analytics domains.
- Built NLP models, RAG pipelines, and LLM-integrated tools using Python, FastAPI, and cloud platforms; developed BI dashboards and SQL reporting systems for data-driven decision making.

Founder | *Aethex (aethex.in)* — AI SaaS Platform | Remote | 2025 – Present

- Founded and scaled a live AI-powered medical SaaS platform (React + FastAPI) serving 200+ registered users — Cadus AI clinical assistant, drug reference database, NEET-PG MCQ engine, and CME hub.
- Integrated Razorpay payments, Firebase auth, Brevo email, and GA4 analytics; owned all ETL pipelines, DNS infrastructure, cloud deployment, and product roadmap end-to-end.

Business Development Executive Intern | *SND Technologies* | Remote | Jan 2026 – Feb 2026

- Engineered automated Python ETL data pipelines for KPI extraction and reporting, eliminating ~30% of manual effort and saving 10+ hours per week.
- Designed SQL queries and Tableau dashboards surfacing actionable sales trends; built Excel workbooks using Pivot Tables, XLOOKUP, and Power Query for real-time performance tracking.

PROJECTS

AI Data Insights Engine (2025–2026)

- Built an LLM-powered analytics tool auto-ingesting CSV/Excel datasets to generate business summaries, trend visualizations, and anomaly alerts — reduced manual analysis time by 60%.
- Integrated Claude API for natural-language data querying, enabling non-technical users to query data without SQL.

SQLFixEnv v2.0 | Meta × HuggingFace PyTorch Hackathon (2025)

- Built and deployed an AI-powered SQL debugging and pipeline orchestration environment; live at huggingface.co/spaces/SANGRALRAHUL/SQLFixEnv.

KPI Performance Dashboard (2025)

- Architected a full BI pipeline orchestrating live SQL data into Tableau with dynamic drill-down filters, reducing ad-hoc reporting requests by ~40%.

EDUCATION

Bachelor of Science | GGM Science College, Jammu (Jammu University) | 2025

Higher Secondary Certificate, Science Stream | MV International School, J&K | 2022

CERTIFICATIONS & TRAINING

Google Data Analytics Professional Certificate | Google / Coursera

Data cleaning, SQL querying, Tableau, spreadsheet analysis, and dashboard-driven business decision making.

Microsoft AI/ML Engineering Certificate | Microsoft

Machine learning pipelines, Azure AI services, model deployment, and responsible AI development practices.

Claude API / Amazon Bedrock / Google Vertex AI | Anthropic

LLM integration, prompt engineering, RAG pipeline design, and deploying AI models on cloud infrastructure.

Investment Banking & Data Analytics Simulations | JPMorgan Chase & Deloitte Australia (Forage)

Financial data modeling, cybersecurity reporting, and structured stakeholder deliverables in Big-4 context.

LANGUAGES & INTERESTS

Languages: English, Hindi **Interests:** Using AI tools daily, Learning AI/ML through video content, Video Editing
